

Boys Volleyball Proposal to Program Review Committee per their Recommendation

In looking at this past year's tournament, if the Classifications were broken into 4 equal parts, 26 schools would be in every "section." Thus, the northern most section would be considered North I, the next section North II, Central and South, respectively.

The Program Review Committee has agreed to a re-vamped tournament whereby four Sectional Championships will be awarded according to a quartile of the approximately 110 boy's volleyball programs in the state.

After the 4 Sectional Champions are crowned, the seeding committee will seed the four winners, 1 through 4, with 1 playing 4 and 2 playing 3, with the winners competing for the eventual State Champion.

This format will add no further dates to the tournament.

All dates and times for the State Semi and Finals have already been locked in with South Brunswick.
