The National Interscholastic Athletic Administrators Association (NIAAA) and AD Insider have partnered up to showcase specific, important topics for this upcoming school year, designed to help your athletic department excel. Join us for multiple episodes of the **NIAAA Workshop Series!**

Episode #1, When Seconds Count: EAPs in School Sports

- **AED Awareness & Access** - Why they're critical, how to keep them accessible, and key use basics.
- **Distribution Programs** - Opportunities schools can leverage to improve emergency preparedness.
- **Albuterol Availability** - The importance of having quick access for asthma emergencies and current practices in schools.
- **Catastrophic Injury Data** - Statistics by sport and position, plus an overview of state-specific laws.
- **Legal Responsibilities** - Understanding the obligations and liabilities athletic departments must be aware of.

Workshop Host and Featured Experts:

- **Host: Becky Moran**, CMAA: Associate Executive Director - National Interscholastic Athletic Administrators Association (NIAAA)
- **Kristen L. Kucera**, PhD, MSPH, ATC, LAT - Professor - Exercise and Sport Science, Director - National Center for Catastrophic Sport Injury Research -- University of North Carolina Chapel Hill
- **Dr. Neha Raukar**, MD, MS, FACEP, CAQSM - Physician & Vice Chair at Mayo Clinic, Emergency & Sports Medicine Specialist, 20+ Years Elite Athlete Care.
