

NJSIAA - NCAA Basketball Evaluation Period Guidelines

AD's,

I am starting to get questions about what is and what is not allowed during the NCAA Basketball Evaluation Period. **Please refer to the guidelines that are explained in the 2025 -26 NJSIAA Handbook that was recently mailed to you (it is also available online).**

The Evaluation Period is September 3 through November 9 this year. A couple of quick guidelines to remind your coaches about:

The Evaluation session are limited to 2 per week- AND they must be requested by a member of an NCAA College basketball staff AND an NCAA staff member must be at the session.

High School Coaches cannot pre-arrange the evaluation session and advertise them on social media- Coaches may use social media to inform NCAA coaches that they have college level players to be evaluated and include the high school coaches contact information.

Each onsite visit by an NCAA Staff member is limited to one (1) hour in length.

Please read ALL of the guidelines in the handbook- Violations of the guidelines will result in a automatic four-game suspension to be served during the first 4 regular season games.

Thanks,

Al Stumpf

Assistant Director
