

Baseball & Softball Suspended Game Rule

To All Baseball & Softball AD's

We've received several questions about the suspended game rule outlined below—please review it carefully, especially item #3, which was updated after last season.

If an out-of-conference game is canceled to make up a suspended game before the cutoff date, the canceled game will be recorded as a forfeit, and your team will be assigned a forfeit loss.

Baseball & Softball Suspended Game Rule

1. All NJSIAA state tournament games will be played under the suspended game rule.
2. All conference, league, & county tournaments will play under the suspended game rule.
3. Pending league or conference approval, the suspended game rule may be used for any regular-season conference, league, or county play that needs to have a winner to determine a conference, league, county, or division champion. **Schools may not cancel previously scheduled games to complete this scenario until after the cutoff.**
4. Suspended game rules may not be used for out-of-conference play.
