

## PowerPoint Survey

To All:

A survey was sent via email on April 20 and April 21 to all coaches of the following sports: Baseball, Basketball, Fencing, Field Hockey, Ice Hockey, Lacrosse, Soccer, Softball, Tennis, and Volleyball.

Within minutes of sending the first batch, we received 30 bounce-back emails for baseball alone. This indicates that many school profiles are not up to date, which prevents coaches and staff from receiving important communications.

Please forward this message to your coaches in the sports listed above.

Kindly send all updates for coaches and other staff to Anne Marie Walters at [awalters@njsiaa.org](mailto:awalters@njsiaa.org), including the following information:

- Email
- Name
- Position (coach, athletic trainer, principal, etc.)
- Sport (if applicable)
- Phone Number (administration only; not required for coaches)
- Person Replacing (if applicable)

Thank you for your prompt attention to this matter.

Coach,

NJSIAA is proposing changes to the number of games that will count toward PowerPoints.

Within this proposal for your selected sport, you will find the following:

1. Current number of games that count toward PowerPoints
2. The average number of games played
3. The proposed number for next year

Once you select your sport, you will see the proposal for that sport. Please review the information carefully and respond accordingly. If you coach multiple sports, please submit a separate form for each. If the sport that you coach is not on the list, please disregard this survey. The survey will close on May 10. Please complete survey using the link below.
