

Athletics and the Law: Protect Yourself and Your District!

The 2026-27 Athletics and School Law Series, a partnership between LEGAL ONE and NJSIAA, offers a series of in-person and virtual sessions designed to help athletics staff effectively navigate complex legal requirements related to school athletics. By covering essential topics—such as progressive staff supervision, establishing clear professional boundaries, supporting student-athletes with special needs, and integrating AI into athletic programming—this series empowers participants with the critical knowledge needed to foster a healthy, compliant environment and proactively protect themselves and their school districts from potential legal liability.

Defining Roles and Engaging in Progressive Supervision of Athletics Staff

Sep. 30, 2026; 9:30 am - Noon
